

nuPlan Stage 1 imagination on lane_conflict — decoupled (no vis) stays bounded; object-only saturates

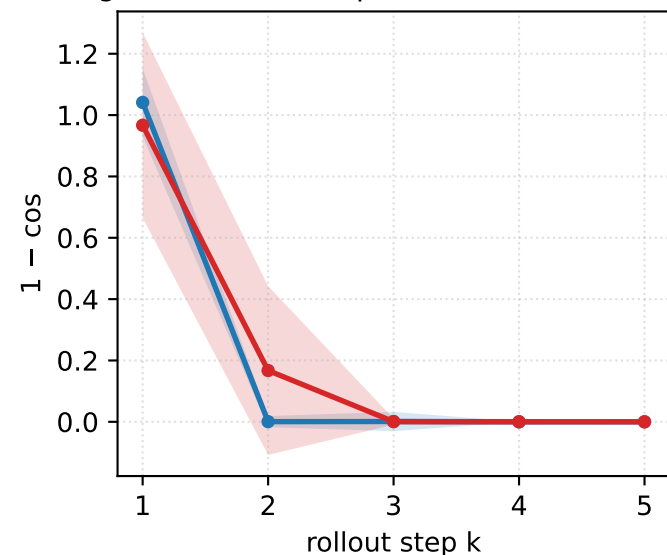

(A) Imagined collision probability

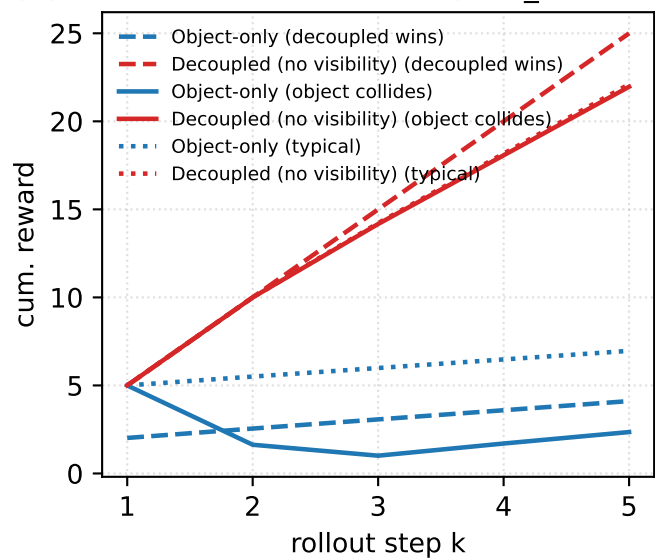

(B) Policy mean action norm $\|a_{\text{mean}}\|_2$

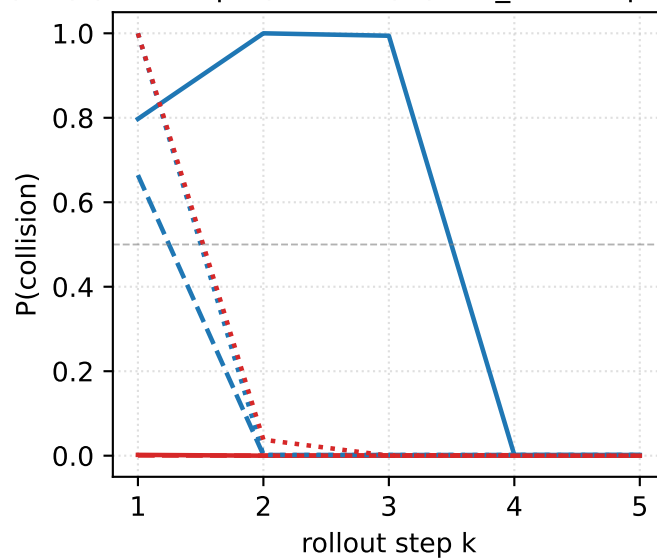

(C) Ego-slot cosine step distance $1 - \cos(e_t, e_{t+1})$

(D) Cumulative latent return (lane_conflict picks)

(E) Per-step P(collision) (lane_conflict picks)

(F) Action norm (lane_conflict picks)
