

Naive shared top-k drops dynamic agents that typed-budget keeps (prediction-err ratio 17 $\times$)

Object+Relation-16 (naive, shared top-k)
0 / 11 near agents selected · pred err = 6.38 m

Decoupled typed-budget (Ours, 12 dyn + 4 rel)
11 / 11 near agents selected · pred err = 0.37 m

★ EGO ● VEH ● PED ● CYC ● selected by abstraction ○ dropped by naive (kept by decoupled)
